

Project Profile

ST. LUKE'S SPORTS & EVENT CENTER

Location: Proctor, Minnesota

Client: Proctor School District

Project: New Facility

Type of Venue: Community

Facility overview: St. Luke's Sports & Event Center is a 44,000 square-foot facility with seating for 1,200. It also has a community room and walking track as part of the facility's offerings. The ice arena is home to the Proctor Rails boys' hockey team, the Proctor/Hermantown Mirage girls' hockey team, and the Proctor Amateur Hockey Association.

Project Overview: The community of Proctor, Minnesota had tolerated their deteriorating, 45 year old facility for much too long. Through their membership in the Sourcewell (previously NJPA) Cooperative Purchasing program, Proctor School District was able to satisfy bid requirements and select Becker Arena Products for the project. Becker provided the dasher board system, bleacher seating, rubber flooring, and locker room benching for the new event center. Proctor's signature dark green school color is weaved throughout the arena - not only in the bleacher seating and locker room benching, but in the caprail, poly backer, and shielding posts as well. Even the flooring has fleck matching the dark green theme.

"Having worked with Becker over the last year, I have really appreciated their prompt service and quality of work. They are always there to answer any questions or concerns and our arena would not look as amazing as it does without their help along the way."

*-Anthony Wood, Director of Operations
St. Luke's Proctor Sports & Event Center*

Installation of the dasher boards, bleachers, and locker room benching was supervised by a Becker Arena Products installation expert. The city celebrated the grand opening of their new facility in October of this year!
