

## Project Profile

### Fidelity Bank Worcester Ice Center

**Location:** Worcester, Massachusetts

**Project:** New Construction

**Type of Venue:** Twin Rink Complex

#### Product Features:

- 2 sets of *Signature Series* 6.0 steel frame dasher boards
- Seamless glass
- Rounded acrylic safety corners
- Ecore Everlast flooring around rinks
- Scoreboard, and other Rink Ready accessories

#### Project Background:

The city of Worcester, MA is the 2<sup>nd</sup> largest city in the Commonwealth, but the closest ice rink to the city with availability was 30-40 miles away. The owners had previously worked with Becker Arena Products on a project in Middleton. They reached out to Becker Arena Products again to provide a solution which would accommodate youth, high school, and college teams as well as the Worcester Railers, the local ECHL team.

The facility also boasts a merchandise center, strength training/physical therapy center and two restaurants.
