

Product Profile

Photo Hole with Cover

An enhancement for your hockey dasher system that allows the photographer to take pictures in different locations at ice level without the obstruction of the shielding. Manufactured to use with .545" or .590" acrylic shielding. We custom cut the acrylic sheet to your required size and place the photo hole with cover in your desired location.

Features and Benefits:

- Made from acrylic materials with rounded corners & beveled edges
- Works with Spring Tension and Locking Pin Mechanism
- Heavy Duty Stainless Steel Handle
- Hole size measures 4 ½" x 5 ½"
- Cover size measures 5" x 6"
- Attachment cable included
