Athletica
SPORT SYSTEMS
Safety through innovation

CREATING CHAMPIONS, EVERYWHERE.

Athletica Sport Systems has recently acquired Cascadia Sport Systems and Becker Arena Products; both are premium providers of dasher board systems and arena aftermarket products. Utilizing the best of these three incredibly successful organizations results in exceptional product offerings, expanded industry experience, and enhanced business relationships for our customers world-wide.

Our shared vision and values remain the same. We will lead the industry in bringing safe, innovative products to market underpinned by superior customer service.

Safety Through Innovation

Here at Athletica Sport Systems, we believe in safety through innovation. Our philosophy has seen us become the world leader in the design, engineering, innovation, manufacture, distribution, installation and service of dasher board systems.

Our designs improve player safety, fan experience, and reduce owner liability.

As a preferred rink equipment supplier to the National Hockey League®, the American Hockey League, and USA Hockey, we work closely with the leagues to ensure new product enhancements such as our unique seamless acrylic shielding system, our patented SoftCap® safety cap rail system and GlassFlex®, our flexible shielding system, are aligned with their current mandates and regulations.

Athletica Sport Systems is headquartered in Waterloo, Ontario, where our manufacturing and main distribution facility is located; we have an additional sales, service and distribution centers in Minneapolis, Minnesota and Vancouver, British Columbia as well as sales distribution around the world.

When it comes to excellence in sports facilities, no other company comes close to Athletica Sport Systems.

Whether it's enhancing the physical safety of players, reducing risk and liability for rink owners; improving ease of conversions, or maximizing the game experience for spectators - we bring it all to the game of hockey.

Our service and installation teams have completed over 3,000 projects - no company in the world builds more dasher board systems than Athletica Sport Systems, and nobody builds them better.

SERVICE SCHEDULES

It makes good sense, and we can help!

Remember, dasher boards are not a static device. Gates are opened and shut (sometimes slammed) hundreds of times a month; bolts and nuts can loosen; shielding can get chipped and marked up; gates can get out of plumb. And yes, sometimes the guy driving the resurfacer might just give the boards a 'bit of a rub'.

Your dasher boards are one of the most visible and memorable parts of your rink. People take away lasting impressions about the kind of facility you operate in part based on what it looks like, and if your boards look bad - if they look like you don't look after them - then that may end up hurting your reputation and your potential repeat business.

More importantly than that, dasher boards need to be maintained to ensure they operate in a manner that assures the safety of the skaters and hockey players who use it.

Maintaining your boards costs a whole lot less than replacing them, so to help you keep them working properly, and lasting a long time, contact us to arrange a service call appointment. Our dasher board technicians and installation supervisors are seasoned, experienced and ready to help you keep your boards looking and working their best all year round. Call today for a no-obligation quote.

And don't forget, we also carry everything you need to keep outdoor rinks in great shape too! Whatever you need, we've got it. From replacement fencing, to fence posts, and all the necessary hardware. Call us for more details.

See below for a recommended maintenance schedule, for more detailed information, consult resources such as ORFA's Guidelines for Arena Dasher Board and Shielding Systems, which you can access from our website: athletica.com

Dasherboard Panels	WEEKLY	MONTHLY	SEASONAL
Check torque of floor anchors, re-tighten as required		●	●
Visually inspect plumb of dasher wall, replumb as required		●	●
Visually inspect framing for deformation or cracks, repair or replace as required		●	●
Check attachment of polyethylene facing, kickplate and caprail to framing, re-adjust/tighten as required	●		●
Inspect panel joints (ice side) for facing alignment, re-adjust/tighten as required		●	●
Check torque of panel connection bolts, re-tighten as required		●	●
Cleaning of polyethylene facing/kickplate		●	●

Gates	WEEKLY	MONTHLY	SEASONAL
Inspect gate swing for proper clearance, adjust as required	●		●
Inspect any steel hardware for start of corrosion. Clean off rust and spray galvanize as required		●	
Inspect gate latches for proper operation, adjust as required	●		
Inspect door/panel frame facing alignment (surface side)	●		
Lubricate gate hinges		●	●
Lubricate adjustable caster		●	●
Check torque of hardware fasteners, re-tighten as required		●	●
Inspect threshold covers for wear and attachment, replace and refasten as required		●	●

Shielding and Supports	WEEKLY	MONTHLY	SEASONAL
Visual inspection of shielding for chips and cracks	●	●	●
Visual inspection of shielding for proper engagement in its support system, tighten and reposition as required		●	●
Visual inspection for proper seating of shielding support base		●	●
Visual inspection of the secure fastening and physical condition of termination pads	●

Cyclo Polisher

Kit includes polishing machine, 2 backing plates, 2 grit cleaning pads, 4 green foam disks (Velcro) and 2 wool pile pads.

Cyclo Polishing Kit #30.55145
Cyclo Polishing Machine Only #30.10055
Backing Plate Holder #30.10513
Grit Cleaning Pad #30.10110
Green Foam Disk #30.10090
Wool Pile Pad #30.10080
Scrub Brush #30.10120

Rink Erasers

Remove puck, tape, and scuff marks with only plain water and some light scrubbing. Suitable for tempered glass, aluminum supports, dasher poly, ad panels, painted locker room walls, fiberglass wall boards and much more. No rubber gloves or protective eyewear required.

Rink Erasers
- Case of 100 4" x 4" x 1" pads #101410

RINK MAINTENANCE

Clear D Zone Citrus Board Cleaner

Highly effective, concentrated ECO friendly cleaner is 100% biodegradable and contains no solvents, caustics or toxins. Use full strength or dilute to increase coverage.

Clear D Zone Citrus Board Cleaner
- 1 gal bottle #101286

Puck-Off Dasher Board Puck Mark Remover

A multi-purpose solution for use on dasher boards to remove stubborn puck marks. Sold in case of 12 one liter bottles.

Puck-Off #30.10171

Blue Dash

A highly abrasive dasher board cleaner for those really tough jobs.

Blue Dash 1 gal bottle #30.10010

Citrusolve

A general purpose cleaner for boards and all around the arena.

Citrusolve 1 gal bottle #30.10020

Exceed Board Sealer

Apply to dasher board facing to seal and make future cleaning easier. Apply two light coats to new boards or immediately after cleaning existing boards.

Exceed Board Sealer 1 gal bottle #30.10150

GLASS CLEANING PRODUCTS

Clear D Zone Rink Glass Polish

Optimized for use with Crystaplex® Acrylic Shielding. This one step cleaner is safe to use on tempered glass, acrylic and polycarbonate. Outstanding results are achieved with the combination of heat/friction and the cleaner. Simple, fast, and economical. 3 gallons are required for a full size NHL rink.

Clear D Zone Polish
- 1 gal bottle #101287

Clear D Zone Polish
- 12 oz. Sample bottle #101280

Glass Wash Kit

For light duty cleaning between events. Includes large eraser pad, swivel pad holder, extension handle, water blade squeegee and soap.

- Glass Wash Kit** #102990
- Extension Handle** #102989
- Swivel Pad Holder** #102935
- Glasswash Soap - 32 oz.** #102547
- Water Blade Squeegee** #101294
- Large Eraser Pad** #102934

Novus #1

Gently cleans without scratching. Leaves a shine that resist fogging, repels dust, and eliminates static.

Novus #1 1/2 gal bottle #30.10180

Novus #2

Removes fine scratches, haziness and abrasions.

Novus #2 1/2 gal bottle #30.10190

Novus #3

Removes heavy scratches and abrasions.

Novus #3 1/2 gal bottle #30.10210

RINK MAINTENANCE

ICE EDGERS

Zamboni Gas Power Edger

Powerful 10.5 HP engine and long lasting eight-sided 18" cutters reduce replacement time and cost. Designed for maximum ease of operation, the engine and depth controls are located on the handle and the unit provides stable "wander-free" control.

Zamboni Electric Power Edger

The Electric Power Edger brings a corded alternative to facility operators. The powerful electric motor easily handles the unit's 18" cutting path. The heavy-duty steel plate body and runners provide stable control and ease of operation. Another emission-free solution for your arena's edging needs.

Zamboni EZIII Edger

The EZIII electric edger offers a 6.5 HP motor at 36 volts. Its three AGM deep-cycle 12 V batteries were designed to perform for the application. With eight-sided 14" cutters, the EZIII provides an effective, long lasting cut, while saving replacement time and cost.

Olympia Battery Power Edger

Powered by a 9 HP motor, the Olympia Battery Edger is nonpolluting, environmentally friendly, and provides more than 40 minutes of high performance edging between charging. With sealed lead acid gel-filled batteries, eight carbide tipped blades and level controls at your finger tips, the Olympia Battery Edger delivers the finest, pollution free finish in the industry.

Olympia Gas Power Edger

4-cycle 3600 RPM engine with 16" cutters. Ease of use, safety, durability and efficiency are standard features in the Olympia line of hand controlled edgers. Featuring the latest innovations in design, the Olympia Edger line sets a new standard for the industry. From the centralized controls in the handle, to the proven reliability of its engine and cutting mechanism, Olympia Hand Edgers meet all your ice edging needs.

Available in gas or propane.

Edger Cutting Blades

Available for use with several ice edger models.

FLOORING

SportFloor Stamina

Stamina repels liquid to minimize clean up and odor with little maintenance. This makes for a cleaner, longer lasting floor that is designed to withstand heavy use in all types of fitness and arena spaces. Cut and dent resistant. Available in 8mm (5/16"), 10mm (3/8"), 12mm (1/2") 4 x 6 tiles. Stamina Interlocking tiles available.

Stamina

SportFloor ReAction

ReAction provides superior traction for the most demanding athletes and environment. With a non-porous top layer and shock absorption dual-layer system, it is a highly resilient and hygienic floor. Available in 10mm and 8mm tiles and rolls.

ReAction

SportFloor ProXL

ProXL is designed to be a long-lasting, high-performance floor. Its versatility, anti-slip, and dual layer durable construction is manufactured to withstand heavy use in the toughest facilities. Available in 10mm and 8mm tiles and rolls.

ProXL

FACILITY PRODUCTS

Mannington Enforcer

Mannington Enforcer is made specifically to resist skate traffic yet looks great in public lobby areas. Enforcer's superior rubber retains color depth, resists indentations and punctures, and is quiet underfoot. Built-in waxes produce natural luster that requires no finishes, top coatings, or waxes. This eliminates stripping, which dramatically lowers maintenance costs.

Regupol

Regupol Aktiv is recommended for all fitness surfaces. It allows for maximum comfort underfoot and absorbs the shock of training impact. Regupol Aktiv Sports and Fitness surface has a five year warranty and is GreenCircle Certified.

Norament 992 Grano

Norament® 992 grano is for sports facilities and fitness centers who operate in a competitive environment where it's important to make a strong impression. The high rubber content makes it the ideal cut-resistant and slip-resistant surface for ice skate blades when skaters are walking or standing around the rink. This flooring is durable, easy to clean and slip-resistant.

FACILITY PRODUCTS

Ecore Everlast

Everlast is the "original" recycled rubber fitness floor. Designed with punishment in mind using only the finest quality recycled rubber and state-of-the-art technology.

Black Rubber Matting

Recycled black rubber matting is an economical flooring solution that provides excellent skate resistance for years of use. Heavy enough to be "loose laid" or glued in place. Nominal size is 4' x 6' - may need to be squared before installation or can be factory trued to square (47" x 71").

- 3/8" thick Nominal** #102133
- 1/2" thick Nominal** #102047
- 1/2" thick Squared** #101156

Vinyl Runner

Provides durable protection of floors, and pointed ribbing provides maximum traction in walkways. Our vinyl runner is resistant to water and chemical damage, and will not shrink or curl over time. Rubber is more suitable for cold environments.

- Vinyl Runner - 1/8" x 3' x 105'** Black #102407
- Rubber Runner - 3/32" x 3' x 150'** Black #103760

Choice Skate Traffic Carpet

BAP Choice Skate Traffic Carpet is tough enough to survive ice skate traffic yet maintains its natural beauty and luster. Polypropylene fiber lasts longer than traditional nylon carpets and repels moisture to resist rot and mildew. A special anti-microbial treatment results in fast drying.

Rubber Flooring - Roll, Tile, Interlock

Designed as an economical flooring product that combines high skate resistance with budget and aesthetics. We recommend a 3/8" thickness for optimal skate resistance in all three products while our less expensive rolled matting is ideal to reduce seams. Available in black or with EPDM color granules in black or 20% fleck. 16 EPDM color granule options to choose from or reflect your building/team colors with custom color chips at no additional cost. 3 year pro-rated warranty.

- Roll - 3/8" x 4' x 50'** Black #101612
- Roll - 3/8" x 4' x 50'** 20% Fleck #102655

FACILITY PRODUCTS

Aluminum Benches

Aluminum benches are constructed of anodized aluminum plank (1-1/2" D x 9 1/2" W) with a 1/2" poly cover for seating comfort in ice arenas. Aluminum plank provides sufficient strength to provide maximum stiffness with minimum supports. Each bench includes end caps. Stock bench lengths are available in 8' and 24' lengths.

Aluminum Bench	8' Length	#102351
Aluminum Bench	24' Length	#102352

Recycled Plastic Lumber Benches

Recycled plastic lumber benches are comfortable, practical and can stand up to wear and tear. Available in wall mount, floor mount, and mobile cubby designs with 2' x 10" and 2' x 12" plank options. Powder coated brackets are also available.

STANDARD COLORS: Sand, Weathered Wood, Cedar, Light Grey, Tudor Brown, Grey, Light Oak, Turf Green, Off-White, Redwood, and Black.

PREMIUM COLORS are available at additional cost: Bright White, Red, Blue, and Yellow.

NOTE: Plastic lumber is nominally sized as dimensional lumber. Other dimensions are available upon request.

Double Plank Bench - No Back

Double Plank Bench with Back

Bench Supports

Athletica bench supports are aluminum constructed and available in socket, floor mount, and wall mount design. Custom sizes available upon request. Indicated heights are for the support only.

ATHLETICA SOCKET MOUNT

Removable socket mounting for those applications where the benches need to be regularly removed a telescopic mount design is required. Available in two sizes.

Bench Supports	22"	#101126
Bench Supports	29"	#101125

ATHLETICA FLOOR MOUNT

Concrete floor mount bench supports have a 3/8" x 6" x 6" mounting plate, pre-drilled with 5/8" holes for concrete anchors. Available in three sizes.

Bench Supports	16"	#101124
Bench Supports	20"	#101211
Bench Supports	22"	#102355

ATHLETICA WALL MOUNT BRACKET

Wall mounted bench bracket with pre-drilled mounting holes, with a size approximately 12" H x 10" D x 3" W. Powder coated black.

Wall Mount Bench Bracket	#102169
---------------------------------	----------------

Becker bench supports are constructed of zinc-plated steel and available in floor mount, angled (sleeve sold separately), and wall mount design. Custom sizes upon request. Indicated heights are nominal.

- Under the counter systems
- Mobile unit systems
- Single-sided or double-sided shelves
- Single-deep or double-deep shelves

FACILITY PRODUCTS

SKATE SHARPENERS

Blackstone Skate Sharpeners

Blackstone's patented spinner system changes the way skates have been sharpened for hundreds of years. The spinner system uses a small 1" disc precision machined with an ROH or an FBV shape. These custom discs are diamond coated to dress the grinding stone with the specific shape. High quality, low maintenance machines for all levels of play. Choose from four sizes to best fit your needs.

BLACISTONE®

Blademaster Skate Sharpeners

Recognized throughout North America as the leader in the skate care industry, Blademaster offers the finest quality skate sharpening equipment as well as a full line of service products. Blademaster skate sharpeners and accessories are endorsed by the Society of Professional Hockey Equipment Managers (SRHEM) in North America and are used extensively by professional equipment managers and retailers around the world. Manufacturer's warranty is 1 year parts and labor.

Wissota Skate Sharpeners

Wissota 911 Skate Sharpener is a commercial grade portable skate sharpener made 100% in the USA. Proven to give you even edges every time right from home, "The Wissota Way."

FACILITY PRODUCTS

DEHUMIDIFICATION SYSTEMS

ARID-Ice Dehumidifiers

Indoor ice arenas require humidity control to stop several problems including fog, mold growth and dripping. Because the ice sheet cools the building, moisture-laden air from outdoors condenses on anything below the "dew point". The MS Series Desiccant Dehumidifiers solve these issues. It is a perfect solution for new construction or replacing your old mechanical dehumidifier that no longer works.

SCOREBOARDS

OES Scoreboards

From the NHL to house leagues and every level of play in-between, OES LED Video and Scoreboards has a long history of partnering with arenas to bring scoreboards, videoboards and scoring and timing solutions to ice rinks.

Whether it's a compact scoreboard to display essential game stats one customized with LED vide electronic team names and sponsor ads, OES offers model to suit every arena size and budget.

Model 6225

Model 6240

CONVERSION

ICE COVERS

ArenaDeck® Ice Cover

The best ice cover on the market today; a popular choice for a majority of NHL arenas. Heavy duty (500 psi allowable compressive strength) yet lightweight, easy to install and maintain. The finish texture provides the right amount of traction and can be easily cleaned with pressure washers or floor scrubbers. The underside waffle pattern traps air creating an insulating R-value of 2.84 and since it's synthetic, it won't absorb moisture, warp, swell or stick to the ice. Standard color is grey with an elephant skin texture. Solid panels are ideal for equipment gate locations.

- ArenaDeck® Panel - Waffle 1" x 48" x 96" 55 lbs #101430**
- ArenaDeck® Panel - Solid 1" x 48" x 96" 63 lbs #101428**

ArenaDeck® Light Duty

The cost effective, light-duty floor conversion panel designed specifically for smaller venues and community rinks to host light traffic, dry floor events. With the same waffle pattern, top surface texture and rated at 300 psi, these panels are the perfect solution for venues with fewer changeovers and smaller budgets.

- Light Duty Panel - Waffle 5/8" x 48" x 96" 30 lbs #101435**

ArenaDeck® FASCOAT Ice Cover

Arena Deck XT takes the same basic panel and adds a spray coating of FASCOAT for additional grip and traction. Black only.

- FASCOAT Panel - Waffle 1" x 48" x 96" 55 lbs #101431**
- FASCOAT Panel - Solid 1" x 48" x 96" 63 lbs #101429**

ICE DAMS AND POLY RAMPS

Steel Ice Dam

With features and benefits like these, it's no wonder the steel ice dam is fast becoming the ice dam of choice for multi-purpose arenas:

- Strong steel construction is resistant to both pressure and ice build up
- Uniformity and strength means puck rebound is consistent
- Replaceable HDPE kickplate at ice edge
- Double set of integrated dasher anchors provide 100% backup should an anchor become stripped or unuseable
- Insulated to minimize frost buildup or edge thawing
- Anchors that are prone to stripping can be easily repaired or replaced
- Designed for installation on new rinks or retrotted on existing rinks
- Laser measurements add to dimensional accuracy and higher quality

Available in 2" and 2.5" steel or stainless steel.

Poly Ice Dam

Popular for years in multi-purpose arenas, this natural white high density polyethylene dam has features not found in other ice dams:

- Cost effective
- Light weight and easy to install
- A good insulator
- Suitable for skate traffic

Commonly used in 7" widths to match dasher board panel widths and available in several thicknesses. In addition to the dasher anchors, the poly ice dam requires an additional 3 anchors per 8 feet.

Available in 1" or 2" thickness.

Poly Ramps

Durable and maintenance-free tapered poly ramps are custom machined from natural white HDPE. We offer ramps in 1", 1.5", 2", and 2.5" heights that taper down to 1/4". Available in straight or radius sections up to 10' in length.

HDPE Ramp - Straight	1.0" x 23" x 120"	#103686
HDPE Ramp - Straight	1.5" x 23" x 120"	#103687
HDPE Ramp - Straight	2.0" x 23" x 120"	#103688
HDPE Ramp - Straight	2.5" x 23" x 120"	#103689
HDPE Ramp - 28 ft Radius	1.0" x 18" x 120"	#103690
HDPE Ramp - 28 ft Radius	1.5" x 18" x 120"	#103691
HDPE Ramp - 28 ft Radius	2.0" x 18" x 120"	#103705
HDPE Ramp - 28 ft Radius	2.5" x 18" x 120"	#103706

Black-out Drapes

Custom fit to your specific dasher system. Drapes include Velcro® board attachment and Velcro® drape connections. Drape lengths are dictated by gate locations in dasher layout. Fabric selections include a variety of colors and materials depending on aesthetics, durability, ease of cleaning and fire rating. Please contact us for a quote specific to your needs.

Retractable Netting Systems

Retractable systems for safety netting are available in both hand crank and motorized winch versions depending on your specific requirements. Nets retract using a bridle system and series of cables. Netting options include nylon and Kevlar protective netting. Call us for a quote.

Vinyl Runner

Provides durable protection of floors, and pointed ribbing provides maximum traction in walkways. Our vinyl runner is resistant to water and chemical damage, and will not shrink or curl over time. Rubber runner is more suitable for colder environments.

- | | | |
|------------------------------------------|--------------|----------------|
| Vinyl Runner - 1/8" x 3' x 105' | Black | #102407 |
| Rubber Runner - 3/32" x 3' x 150' | Black | #103760 |

Tunnel Covers

Retractable entrance covers tailored to your needs. Available in a variety of colors and made to fit your exact tunnel dimensions. Collapse and roll away on wheels for easy storage.

Dasher Board Padding

The standard design involves an "L" shape that folds at a 90 degree angle and extends up and over the top of the dasher board to provide maximum protection to both the face and top surfaces. These pads are available in both 3" and 5" thicknesses and heights of 42" and 48". Standard pad width is 8'. Custom sizes available upon request.

Puck Freezer

Keep your pucks consistent and frozen while travelling. For ultimate ease of transportation, the compact freezer runs off standard voltage. Digital thermostat is adjustable from -8 to 50 degrees F.

- Puck Freezer** **#102838**

Glass Lifters

Suitable for gripping and holding any smooth surface. Acrylic, tempered glass etc. up to 125 lbs max. weight. 8" diameter suction cup with a lexan handle and storage case.

Individual Glass Lifter

#101425

Forklift Attachment for Glass Lifter

Specially designed for safe and secure attachment of the electric glass lifter to standard forklift forks. Double fork capacity. Maximum load capacity of 2000 lbs.

Double Fork Model

#101302

Electric Glass Lifter

A must for moving large sheets of tempered glass up to 700 lbs max. weight. A battery powered vacuum pump allows for a quick "hookup". Glass lifter frame is hinged so glass can be tilted and the shield can be rotated. Forklift rigging attachment NOT included.

Electric Glass Lifter

#101304

STORAGE CARTS

A-Frame Shielding Storage Cart

Available in two sizes to accommodate various shielding and storage room sizes. Each cart frame is constructed of welded steel and painted with strategically located white poly cladding to eliminate metal to glass contact. Two rigid and two swivel wheels allow the cart to be easily maneuvered via the welded-on towing tongues and pull handles (one each end). Two ratchet and strap assemblies are included with each cart. Maximum load capacity is 5000 lbs. *Assembly required.*

- Large A-Frame Storage Cart** **52"W x 94"H x 102"L** **#101207**
- Small A-Frame Storage Cart** **52"W x 58"H x 60"L** **#102625**

Dasher Board Storage Cart

Storage carts are constructed of a welded steel and painted frame with 6" wheels (2 rigid and 2 swivel) that have been engineered to carry maximum loads. The cart deck is covered to eliminate metal to metal contact with end rails to minimize panel shifting and damage during transport. To maximize the load capacity, 12 straight (7") dasher panels can be easily loaded side by side and upright. The unique cart design allows for cart stacking to maximize storage space. Maximum load capacity is 2000 lbs. *Assembly required.*

- Dasher Board Storage Cart** **48"W x 60"H x 96"L** **#102209**

Conversion Dasher Board Storage Cart

Constructed of welded steel and painted frame with 6" wheels that allow the cart to be easily maneuvered. Features a hinge-mounted ramp for ease of loading. Poly spaces to prevent damage to drop kick. *Dolly included.*

- Conversion Storage Cart** **#103780**

ArenaDeck® Stackable Storage Cart

ArenaDeck® storage carts are constructed of a welded steel and painted frame with 6" wheels (2 rigid and 2 swivel) that allow the cart to be easily maneuvered. The cart deck is plywood. Each cart will hold up to 50 1"H x 48"W x 96"L ice covering panels. Maximum load capacity is 2400 lbs. *Assembly required.*

- ArenaDeck® Storage Cart** **48"W x 65"H x 96"L** **#102987**

Crystaplex® HDM Cart

The cart frame is constructed of aluminum. Includes 2 cart push bars, with 2 swivel and 2 rigid caster wheels, allowing for easy movement. Holds 66 pieces of Crystaplex® HDM sleeves, Crystaplex® WIDE sleeve variant also available. *Assembly required.*

Crystaplex® HDM Cart **38"W x 48"H x 30.5"L** **#102305**

Becker Shielding Storage Cart

This heavy duty shielding storage cart features rubber mounted supports, two fixed and two swivel with brake casters, pull handle, and powder coated finish.

Shielding Storage Cart **54" L X 38" W X 62"** **#82.10110**
Shielding Storage Cart **84" L X 40" W X 87"** **#82.10120**
Shielding Storage Cart **84" L X 40" W X 63"** **#82.10115**

Slotted Acrylic Cart

The cart frame is constructed of steel with a powder coating. Includes 2 swivel and 2 rigid caster wheels, as well as tow hitch and forklift lifting channels. Holds 34 pieces of 93" long CrystaPlex® HDM sleeves, CrystaPlex® HDM WIDE sleeve variant also available, or 30 pieces of 99" long CrystaPlex® 590 Acrylic. Maximum load capacity is 6000 lbs.

Slotted Acrylic Cart **65"W x 110.5"H x 89"L** **#103478**

Curved Acrylic Cart

The cart frame is constructed of aluminum. Includes 2 cart push bars, with 2 swivel and 2 rigid caster wheels, which allow it to maneuver easily. Holds 7 complete curved acrylic assemblies and stores 4 additional HDR and 4 2C posts as well for convenience. *Assembly required.*

Slotted Acrylic Cart **65"W x 110.5"H x 89"L** **#102357**

SKILLS DEVELOPMENT

CROSS-ICE ACCESSORIES

Optimizer Rink Divider Set

The Optimizer is an aluminum framed rink divider designed for ultimate ease of installation and long wearing performance; the premier solution for arena managers, hockey coaches, and associations looking to 'divide the ice' in order to facilitate half-ice practices as recommended by various federations, including USA Hockey's American Development Model (ADM) and Hockey Canada's Cross Ice Initiation Program.

The Optimizer is available in standard 85' and 100' lengths and is shipped on its own storage cart. Designed for ease of assembly and tear down, Optimizer includes a 28" gate opening panel and standard radiused ends. Each panel measures 90" long by 36" high and is made from aluminum welded frames. Facing is white UV stabilized HDPE with a red or blue top cap. Options include a 42" high version, yellow kickplate, and netting for upper puck containment. Customized panel lengths can be ordered to fit other rink widths.

Standard set contains:

- 9 standard straight panels - 90" long
- 1 gate panel - pass through gate
- 4 radius panels (2 per end) - 78" long
- Adjustable tension buckles
- 1 storage cart

Shipping weight - 1150 lbs, 4'x 8' x 5' H single pallet.

Optimizer Rink Divider Set	36" x 85'	#101247
Optimizer Rink Divider Set	36" x 100'	#102051
Optimizer Rink Divider Set	42" x 85'	#102551
Optimizer Rink Divider Set	42" x 100'	#103538

Optimizer Storage Cart

The cart frame is constructed out of aluminum, with 4 wheels. The cart allows for ease of stowing and transportation of your Optimizer.

Optimizer Storage Cart	52"H x 48"W x 94"L	#101246

SKILLS DEVELOPMENT

Border Patrol® Rink Dividers

Make the most of your ice time, rink programming and training effectiveness with our durable Border Patrol® Rink Dividers; designed specifically for cross-ice style training. Fast and easy to set up, the durable panels are constructed of high-density foam with a tear-resistant vinyl covering. Heavy-duty Velcro® straps securely connect the panels. The rectangular shape allows for uniform rebound and play on both sides. Great for dry-land training and intramural sport containment. Graphics can be silk screened on both sides of the panels to provide sponsorship opportunities.

BP-D Standard

Great for Mini-Mites, Mites, Squirts and zone specific drills. Optimize your rental ice time with these safe, durable and easy to set up panels. Standard color is black. Weighs 20 lbs per 10 feet.

BP-D Standard Panel	12”H x 8”W x 120”L	#101589
BP-D Standard Panel	12”H x 8”W x 60”L	#101590
BP-D 85' Standard Set	Set includes eight (8) 12” x 8” x 127.5” panels	#102031
BP-D 100' Standard Set	Set includes ten (10) 12” x 8” x 120” panels	#103580

BP-D Jumbo

Divide the ice for competitive 3-on-3 practices. Double stack against dashboards to teach safe checking techniques. Great for older, advanced players! Standard color is black. Weighs 60 lbs per 10 ft.

BP-D Jumbo Panel	22”H x 12”W x 120”L	#102037
BP-D Jumbo Panel	22”H x 12”W x 60”L	#102038

- Welded - Prestrung #103554

PERFORMANCE AIDS

Shooter Tutor

Acts as a substitute goalie when no goal tenders are available. Improve accuracy (trains players to aim for the corners and the five hole), increase goal scoring, and enhance the fun of the game with one of our durable practice goalies. Tested at -30° F, continuous 100 mph shots. Weighing only 10 lbs, it's portable and easy to store. Rolls into a 3' x 4" bundle and fits in a car trunk or equipment bag. Install and remove from nets in seconds.

- Shooter Tutor #102634

Rick-O-Shay

Never worry about the goalie not showing up when you've got "Hockey's Most Realistic Goal Blocker". Realistic 3-D contours create deflections and rebounds in random directions. Made of super durable high molecular weight polyethylene for years of indoor or outdoor play.

- Rick-O-Shay #101409

SKILLS DEVELOPMENT

Real Shot Trainer

The trainer that replicates a real goalie with 13 challenging shot spots. This durable poly board with coated hook system makes it easy to remove from goal frame.

Real Shot Trainer

DASHBOARD REPLACEMENT COMPONENTS

ADVERTISING PANELS

Impact Ad Panels

Specially designed to withstand the continual use and abuse from pucks, players, vibration, moisture and temperature changes.

- Fabricated to precisely fit your new or existing dasher panels including gate sections.
- Panels feature bullnose edging and rounded corners to minimize errant rebounds and potential player injury.
- Panels are supplied as predrilled and countersunk or as blanks.
- Flathead screws with special hi-lo thread seat below the panel surface to provide a safe and secure attachment. Can be easily removed for graphic and message changes.
- Impact Ad panels are also available with sponsor, graphic or message decals already applied and ready to install. The decals are professionally printed and installed using customer supplied artwork files. Vibrant and long lasting but can be removed for sponsor or message change.

Custom 12" Red and Blue Lines

Display your team or arena logo within the red or blue lines of your rink. Durable hi-density dasher facing material is CNC machined to match your logo and inlaid into the lines just like in the professional arenas. Great looking and made to take the abuse. Please email a copy of your logo for quote request.

Crystaplex® Quick Release Brackets

Bolted directly to the panels and clipped into the dasher frames, dasher board panels can be removed quickly with the actuation of a 1/4" dowel. Designed specifically for use on 3/4" and 1" thick caprail on CrystaPlex® dasher systems. 4 brackets required per panel.

Upper Bracket	#100164
Lower Bracket	#100165

DASHBOARD REPLACEMENT COMPONENTS

DASHERBOARD REPLACEMENT COMPONENTS

UVEEBOARD® Outdoor Puckboard

Durable and long lasting, all-purpose UveeBoard dasherboard cladding is the ultimate outdoor puckboard for all-weather outdoor and indoor use. UveeBoard offers superb resistance to degradation from UV exposure, very low coefficient of expansion and contraction and has superior cold temperature impact ratings due to its special resin composition; it looks, feels and cuts like conventional HDPE. Used in facing, caprail and kick plate applications in your choice of 4 colors: blue, gold, white or yellow. Sheet sizes available in 1/4" or 3/8" thickness.

Kickplate sizes available in 1/4" or 1/2" thickness.

.220" thickness	42" W x 97"	#100289

Gold	.250" thickness
8" x 96"	#102437
Gold	.250" thickness
6" x 96"	#101977

DASHBOARD REPLACEMENT COMPONENTS

Tempered Glass

Tempered glass is commonly used in community arenas:

- Scratch resistant
- Easy to clean
- Use with supportless systems

Standard glass comes "arena-ready" with radius top corners and flat-ground edges and is available in 5/8" or 1/2" thickness. Custom sizes also available. Speaker and media holes are also available.

Acrylic Shielding

Acrylic shielding is the industry standard in competitive multi-use arenas with frequent changeovers.

- Flexible and lightweight
- Easy to store
- Use with conversion systems

Fabricating shielding to "arena-ready" with top two corners rounded and exposed edges bullnosed is recommended to minimize breakage.

Whatever you need, we can supply full-sheet, cut-to-size, and arena-ready acrylic shielding in these options:

Crystaplex® 590 Plus

This material has been successfully tested by Athletica Sport Systems, approved for use by the NHL.

STANDARD SHEET SIZES:

51" x 100"	#100491

60" x 96"	#100483
72" x 96"	#100484

Polycarbonate shielding in 3/8" and 1/2" is available on request.

What is Crystaplex® 590 Plus acrylic?

At Athletica Sport Systems, we take the science of sport seriously; we know that as technology has made hockey sticks lighter and slapshots faster and harder than ever, flimsy shielding doesn't cut it. That's why we only use Crystaplex® 590 Plus acrylic in our seamless acrylic shielding systems.

Not all acrylic shielding is created equal. In some cases, what is referred to as "half-inch" thickness may in fact be as thin as .472" thick.

The Crystaplex® 590 Plus acrylic is guaranteed always to be between 0.585 inches and 0.620 inches thick.

You get all the advantages of lightweight acrylic with lasting durability you need in your dashboard shielding.

DASHERBOARD REPLACEMENT COMPONENTS

Crystaplex® HDR Heavy-Duty Quick Release Shield Support

Specially designed for use by multi-purpose facilities where change-over speed is critical, one person can remove shielding from ice side by unhooking the faceplate. Flat profile faceplate minimizes unusual puck deflections. Use with B110 gaskets and B94 gaskets.

STANDARD SIZES (overall length/height above cap rail):

3' Shielding	35" Face / 54.375" Back
4' Shielding	47" Face / 66.375" Back
5' and 6' Shielding	59" Face / 78.375" Back
7' and 8' Shielding	83" Face / 102.375" Back

Crystaplex® Mark VI Shield Support

Requires only one person with a screw gun for shield installation or removal from ice side. Springnut channel design prevents stripping common with tapped bolt designs. Use with B110 gaskets and B94 gaskets.

STANDARD SIZES (overall length/height above cap rail):

3' Shielding	35" Face / 56.5" Back
4' Shielding	47" Face / 68.5" Back
5' and 6' Shielding	59" Face / 80.5" Back
7' and 8' Shielding	83" Face / 104.5" Back

Crystaplex® HDM Sleeve

Engineered for seamless acrylic installations, the HDM sleeve is constructed of flexible polycarbonate for maximum player safety. Transparent design allows for increased fan experience.

69"	#103488
93"	#103487

Crystaplex® 2C Shield Support

Used for right angle turns and shield termination points at box corners or gate locations. Use with B110 gaskets and B94 gaskets.

STANDARD SIZES:

3' Shielding	59"
4' Shielding	71"
5' and 6' Shielding	83"
7' and 8' Shielding	107"

(14' lengths also available)

Crystaplex® Mark IV Shield Support

Standard one-piece shield support for .500" shields only. Used on both inline and ice hockey rinks with support. Use with Mark IV plastic U-channel gasketing.

STANDARD SIZES:

3' Shielding	55"
4' Shielding	67"
5' Shielding	79"

Crystaplex® HDM Wide Sleeve

Built with flexible transparent polycarbonate and engineered for seamless acrylic installations, the CrystaPlex® HDM wide sleeve can be retrofit with existing shielding.

69"	#103680
93"	#103490

Clearvision Support

Clear Vision Supports minimize viewing obstruction and provide for more flexible shielding. Supports do not require gaskets. Unique design allows for quick shielding removal.

111"	#102824
87"	#102825

DASHBOARD REPLACEMENT COMPONENTS

Crystaplex® HDS Post

Increase player safety with an easy retrofit from aluminum CrystaPlex® HDR post and Pro Series™ shield support. Flexible polycarbonate shielding support engineered specifically for Crystaplex® 590 Plus acrylic shielding. More flexible option. Glazing gaskets not required. Custom colors available.

118"

#102696

Pro Series™ End Shield Supports

Removable faceplate allows for ease of shielding replacement. End supports are used at shielding termination locations and on gate doors. Standard posts will support 1/2" and 5/8" shielding - tempered glass or acrylic.

STANDARD SIZES:

4' Shielding	36" Face / 60" Back
5' Shielding	48" Face / 72" Back
6' Shielding	60" Face / 84" Back
7' Shielding	72" Face / 96" Back

Pro Series™ Corner Shield Supports

Removable faceplate allows for ease of shielding replacement. Corner supports are used at player, penalty and timer box locations. Standard posts will support 1/2" and 5/8" shielding - tempered glass or acrylic.

STANDARD SIZES:

4' Shielding	36" Face / 60" Back
5' Shielding	48" Face / 72" Back
6' Shielding	60" Face / 84" Back
7' Shielding	72" Face / 96" Back

Pro Series™ Mullion Shield Supports

Removable faceplate allows for ease of shielding replacement. Standard posts will support 1/2" and 5/8" shielding - tempered glass or acrylic.

STANDARD SIZES:

4' Shielding	36" Face / 60" Back
5' Shielding	48" Face / 72" Back
6' Shielding	60" Face / 84" Back
7' Shielding	72" Face / 96" Back

DASHBOARD REPLACEMENT COMPONENTS

Becker Aluminum Shield Supports

Shield support uprights are constructed of solid extruded aluminum with clear anodized finish. Furnished complete with shield gaskets, these supports are available in various configurations to meet your specific needs. Standard and custom shield support lengths available.

Becker Two Piece H-Channel

Cut to desired lengths.

Becker Termination Post

Used at gate locations.

3/4' Shielding	47 1/8"
5' Shielding	59 1/8"
6' Shielding	71 1/8"
7' Shielding	83 1/8"
8' Shielding	95 1/8"

Becker Round with Face Plate

The standard post used for the Becker 6.0 system, round design with two-piece construction.

3/4' Shielding	34 1/2" Face / 55 5/8" Round
5' Shielding	46 1/2" Face / 67 5/8" Round
6' Shielding	58 1/2" Face / 79 5/8" Round
7' Shielding	70 1/2" Face / 91 5/8" Round
8' Shielding	82 1/2" Face / 103 5/8" Round

Becker Quick Release Shield Support

Designed for multi-venue facilities where quick change out of shielding is required.

6' Shielding	70 1/2" Face / 90 3/8" Round
6' w/ Cushion	70 1/4" Face / 90 3/8" Round
8' Shielding	94 1/2" Face / 114 3/8" Round
8' w/ Cushion	94 1/4" Face / 114 3/8" Round

Becker C-Channel

Cut to desired lengths.

One piece H-Channel

Cut to desired lengths.

Shielding Gaskets

Vinyl gasketing is available for 1/2" and 5/8" shielding in 6', 8', and 10' lengths.

DASHBOARD REPLACEMENT COMPONENTS

Plastic Sill Channel

Used on top of the caprail to support and protect shielding or at shielding termination points.

- Sill channel Red** #102202
- Sill channel Blue** #102203

Glass Spacer Blocks

Revised design is sized properly to provide appropriate seamless glass spacing and at the same time fit within the seamless channel to minimize obstruction. Spacer blocks are durable white HDPE. Suitable for permanent rinks.

- Glass Spacer Blocks Bag of 20** #101988

Crystaplex® 2C Cups

Zinc plated steel construction. Mounts to center stringer and holds "2C" in place. Sold individually.

- LH mount design** #100189
- Center mount design** #100188
- RH mount design** #100190

Crystaplex® Replacement Bolts for Mark VI Supports

Replacement parts available to replace the occasional lost or stripped screw. Special 1/4" spring nut locks into the slot on the back of the Mark VI post.

- 1/4" Springclip nut** #100908
- 1/4" FH screw** #101931

Crystaplex® HDR Sockets

Zinc plated steel construction. Angle mount design attaches to center stringer and holds HDR support in place. Sold individually.

- Angle mount** #100191
- Flush mount** #100193

Crystaplex® J-Brackets

Sold individually and model is dependent on caprail thickness.

- 1/2" Caprail thickness Red** #101074
- 3/4" Caprail thickness Yellow** #101075
- 1" Caprail thickness Blue** #101073

Crystaplex® Replacement Pins for HDR Support

Replacement roll pins for the quick release HDR support posts.

- Replacement Pins Bag of 100** #101081

DASHBOARD REPLACEMENT COMPONENTS

DASHERBOARD REPLACEMENT COMPONENTS

Supported Shielding Gasketing

Protects shielding within aluminum shield supports.

Crystaplex® B94 Gasket

Use with Crystaplex® HDR, 2C and Mark VI support and aluminum C-channel.

.625" Black 120" #100607

Crystaplex® B110 Gasket

Use with Crystaplex® HDR, 2C and Mark IV support and aluminum C-channel.

.500" White 120" #100606

Crystaplex® Mark IV Gasket

Use with Crystaplex® Mark IV support only.

.500" Clear 72" #100624

Crystaplex® 6A Seamless Gasketing

Protects shielding within seamless glass channel, speeds replacement of broken shielding and closes gap areas for safety.

DASHERBOARD REPLACEMENT COMPONENTS

CheckFlex® HairPin Polycarbonate Clip

Allows two adjacent seamless glass shields to move in conjunction with one another to maximize overall impact absorption. One size universal clip fits straight and radius areas and 1/2" or 5/8" shielding. *Sold individually.*

CheckFlex® HairPin Polycarbonate Clip #100048

Clear Vision Clip

Clips for Clear Vision supports provide additional support to shielding.

Clear Vision Clip #101847

Crystaplex® HDR Butterfly Clips - Wide Vision Shielding

Butterfly clips for HDR supports in Wide Vision shielding designs provide additional support and engagement for shielding. Clips fit the contour of the spectator side of the HDR support and attach with screws.

HDR Butterfly Clip #101398

GlassFlex® Clip

3rd generation seamless glass clip designed specifically for optimum movement of GlassFlex® shielding system. Large surface area helps prevent the clips from dislodging off the glass. One size clip fits both 5/8" and 1/2" thick shielding. *Sold individually.*

Straight Clip #101402
Radius Clip #101399

Glass Spacer Clip

Original design U-shape spacer clips provide proper spacing of seamless glass. One size fits both 1/2" and 5/8" shielding. Suitable for multi-purpose rinks. *Sold individually.*

Crystaplex® Replacement Release for Latch

Original design - spring-loaded push rod/plunger assembly that connects to Crystaplex® gate latch set. Push button size is 4 x 1".
Sold individually.

Replacement Release Latch #101917

Crystaplex® Spring Loaded Release

Spring loaded plunger. Connects to Crystaplex® gate latch set.
Sold individually.

Spring Loaded Release #103356

Becker Lift Latch

Zinc-plated welded construction. Catch designed with elongated holes for proper alignment. Sold with or without push button feature, this heavy-duty lift latch is suitable for daily use. Fasteners included.
Sold individually.

Lift Latch with Push Button #48.22460
Lift Latch without Push Button #48.22420

Crystaplex® Ice Side Release for Latch

New style push button assembly utilizes a machined HDPE housing and button. Smoother operation and no lubrication required. Push button size is 4 x 1". Can be retrofitted onto previous model Crystaplex® ice side release mechanisms with a slight modification to framing required.
Sold individually.

Ice Side Release Latch #100195

Becker Spring Latch

Replacement latch for previous BAP6.0 designs. This latch system is available with or without push button. *Sold individually.*

Spring Latch without Push Button #48.22730
Spring Latch with Push Button -Left #48.22520

DASHERBOARD REPLACEMENT COMPONENTS

Precast Anchors

Athletica Sport Systems precast anchors are available in 5" and 6" heights to match the thickness of the refrigerated slabs. Anchors are 5/8" x 11 tpi thread and have an adjustable height feature. Standard design is unfinished steel base with a stainless steel plated coupling nut. Anchors are supplied complete with a 5/8" socket set screw plug.

- 5" high x 5/8"** #101986
- 6" high x 5/8"** #102317
- Pro Series Anchor** #102481

Epoxy Anchor Female Insert

Epoxy anchors are ideally suited for ice arena application where vibration, edge distances and temperature changes come into play. Standard design epoxy anchors are 5/8" x 11 tpi x 3-1/2" long, zinc plated steel finish. Anchor bolts and epoxy sold separately.

- Female Insert** #100790

Epoxy Anchors

Custom-made anchors using zinc plated steel with threaded interior sleeve.

- 1/2" x 3"** #22.10100
- 3/4" x 3 1/2"** #22.10120
- 5/8" x 2 1/2"** #22.10130
- 5/8" x 3 1/2"** #22.10140

Epoxy

Adhesive for the epoxy anchors comes in two cartridge sizes for convenient installation. Athletica Sport Systems adhesive is specially selected and proven for use in demanding ice arena applications.

28 oz tube:

Enough for 20 @ 5/8" x 3-1/2" epoxy anchors. One mixing nozzle comes with the 30 oz cartridge. The 30 oz cartridge also requires a special dispenser.

- 28 oz tube w/nozzle** #103479
- 28 oz dispenser** #103481

10 oz tube:

Enough for 7 @ 5/8" x 3-1/2" epoxy anchors. One mixing nozzle comes with the 10 oz cartridge. The 10 oz cartridge can be used with a standard size caulking gun.

- 10 oz tube w/nozzle** #103482
- Mixing nozzles** #103480

Anchor Bolts and Misc. Fasteners

We also stock various typical fasteners used in dasher board construction:

- Hex HD anchor bolts**
- Lag bolts**
- Hex nuts**
- Nylon lock nuts**
- Flat washers**
- Lock washers**

Dasher Shims

Precut aluminum shims, 1-1/2" x 5". Provide adjustment for plumbing dasher panels. Corrosion resistant and durable.

- 1/32"** #101176
- 1/16"** #101175
- 1/32"** #101526

DASHERBOARD REPLACEMENT COMPONENTS

Fasteners for Poly, Fiberglass

Keep your system from looking piece-meal by using color matched fasteners when replacing your facing, kickplate, caprail and backing. Fasteners are stocked in the following prepainted colours: Red, Dark Blue, Light Blue, Yellow, Gold.

Fastener Maintenance Kit

Kit includes attic stock of the common fasteners required for routine maintenance of dasher systems. Please specify model system and caprail and kickplate colors. Also includes drill bit, countersink and drive required.

Fastener Maintenance Kit #102586

Vertical Lift Gate

Another example of the "Safety Through Innovation" thinking that keeps Athletica Sport Systems on top in the dasherboard industry. With all the standard safety and construction features we build into our gates, nothing else comes close:

- Infrared safety beam prevents the gate from descending accidentally
- If there's an obstruction, the heated safety switch located on the underside of the door will automatically force the gate to reverse back up
- Built-in mechanical safety brakes lock the gate in place should a chain fail
- Remote control included
- Manual gate control in the event of a power loss
- Follow-up annual safety inspections

We keep safety "top of mind". Why take chances with anything but the best?

Replacement Panels/Gates

Individual replacement sections can be made to fit your exact requirements. Whether your problem is damage to an existing frame or you need to add an additional access gate, we can help. Replacement sections can be made to fit wood frame, fiberglass, steel or aluminum frame systems. Call to discuss your needs.

Glass Spectator Railings

No one builds them better! Custom designed, engineer approved glass spectator railings that are sturdy, safe and always up to code. Contact us today for more information.

Basement and Backyard Rinks

If you and your family are looking to spend more time playing the great game of hockey, look no further than Athletica Sport Systems for all your rink needs. We've sold and installed backyard and basement rinks across North America and around the world.

Whether you need a rink with square or radius corners, tempered glass or lightweight acrylic, fencing or no shielding at all, we have what you need. And don't forget benches and netting too.

Contact us today for a free no-obligation quote on your own personal dasherboard system. Ask us about the many advantages of using synthetic ice.

Service

Servicing your arena boards makes good sense, and we can help. Dasher boards need to be maintained to ensure they operate in a manner that assures the safety of the skaters and hockey players who use them. Your dasher boards are the most visible features of your rink. Maintaining your boards will create a lasting impression and costs a whole lot less than replacement.

Our dasherboard technicians and installation supervisors are seasoned professionals, experienced and ready to help you keep your boards and rink equipment looking and working their best all year round. And that includes outdoor rinks too!

More than just arena services, Athletica Sport Systems offers solutions for your everyday service needs. Lift gate inspections, board and gate adjustments, re-cladding and assistance with conversions, are just some of the services we provide.

Call us for more details and a no-obligation quote.

TERMS AND CONDITIONS

Back Orders

Unless notified otherwise, we will automatically back order and ship, as soon as possible, out of stock items.

Credit Cards

Athletica Sport Systems accepts the following credit cards: Visa, MasterCard and American Express. \$3,000 limit. Applicable fees may apply.

Damaged Merchandise

When a shipment is received please inspect for damage immediately. If there is damage to the package, make notation of same on carrier paperwork before you take possession of the shipment at your premises. Athletica Sport Systems is not responsible for damage or loss in transit. All freight claims must be filed with the delivering carrier. Notification of shortages or damages must be made within five (5) days of delivery. Do not return damaged merchandise without contacting Athletica Sport Systems first.

Disclaimer

Athletica Sport Systems reserves the right to correct any errors in the catalog, remove any items that become unavailable, and to substitute similar items of equal or greater quality if available.

Past Due Payments

If payment is not made when due, interest at the rate of 18% per annum (or the maximum percentage rate allowed by law, whichever is more) will be charged on such past due payments. Purchaser agrees that Athletica Sport Systems may recover all of its attorneys' fees, costs, disbursements, expert costs, and any other related expenses incurred in the event of Purchaser's non-payment.

Pricing

Athletica Sport Systems does not supply a price list for catalog items. This policy allows us to provide customers with the best possible commodity pricing at shipment time. All applicable sales taxes are extra unless noted on quotations.

Return Policy

Prior approval is required on all returns. All returned merchandise must be new and unused, and in saleable condition, preferably in the original packaging. Return shipping costs are the responsibility of the buyer. All returns are subject to a minimum 15% restocking and handling fee. Athletica Sport Systems reserves the right to refuse the return of merchandise if our return policy and procedures are not followed. In the case of defective merchandise, contact Athletica Sport Systems to arrange return and/or replacement. Custom ordered/manufactured items shall be approved for manufacture by the buyer before construction and are not returnable.

Returns, Lost Orders, Shortages, Wrong Items

If you have placed an order and have not received it in a reasonable period, or the merchandise received is not correct, please contact us.

Shipping

All shipments, unless specified otherwise, are F.O.B. stock location. Shipping costs are additional unless quoted otherwise. Orders are shipped via LTL transport or Economy Ground Service unless directed otherwise. Expedited freight service such as Overnight and Timekeeper LTL are available upon special request.

Terms

All new accounts will require a completed signed and approved credit application. If approved on credit, payment is due net 30 days.

Warranty

All of our products have a manufacturer warranty unless specified at the time of quoting. The extent and life of warranty varies by product. Full warranty details regarding a product can be obtained by contacting us.
