Top Reasons People Choose BAP:

- Performance
- Staff of Professionals
- Versatility
- Experience
- On-Time Deliveries
- Commitment to Quality

KICK SERIES

3.0 DASHER BOARD SYSTEMS

Each 3.0 System is specifically designed to meet the needs of your facility with the following design specifications, options and considerations.

Product Design Specifications

FRAMEWORK:

The basic framework of the Kick Series Soccer Boards is made of powder coated steel frame upright posts with drilled-in concrete anchors for ultimate stability and a look which blends seamlessly with each panel.

PANELS:

Panels are made of 1-1/8" thick white 55# density composite thermo-fused Melamine surface board. Melamine wood is strong and resistant to scratching. It is environmentally friendly and easy to clean. Melamine uses wood in the construction process that would otherwise be thrown away.

CAP RAIL:

Each panel is topped (or capped) with a 1/2" thick high density polyethylene cap rail giving the system a clean, completed finished look. The cap rail is available in standard white, red, blue or custom colors to match your facilities decor.

Options & Considerations

UPPER CONTAINMENT (SPECTATOR SHIELDING):

Depending on your facility and building, you may want to add a section or more of spectator shielding and this can be done with either acrylic or tempered glass.

VERTICAL & HORIZONTAL BALL CONTROL NETTING:

White or black nylon ball control netting is necessary in many buildings. We can supply the netting, the framework and hardware required to install.

PLAYER GATES (DOORS):

Player gates (doors) can be made to match your Melamine lower panel and upper shielding or you can choose a full view glass option. Each entry is constructed with heavy duty hinges and lift latch.

PLAYER, PENALTY & TIMEKEEPER BOXES:

Player, penalty and timekeeper boxes in several sizes and configurations are available with or without benching.

INSTALLATION:

Full installation by Becker Arena Products includes our crew for the complete installation of the dasher board system. A "Supervisor Only" option is also available. With this option you supply the crew and tools and the installation is lead by a member of our professional installation staff.

Products To Complete Your System

BENCHING:

Our player benches are constructed with a steel frame and recycled plastic lumber, with or without back rests.

PORTABLE BLEACHERS:

We carry a full line of portable bleacher systems. All seating designs are compliant with federal, state and local building codes and regulations.

GOALS:

We supply stand alone Soccer and Lacrosse goals, built in permanent Soccer goals or Retractable Soccer Goals for conversion to Lacrosse or other activities.

TURF:

Becker Arena Products works with your choice of manufacturer to assure the best installation possible. Let us know if we can recommend a supplier for you.

SCOREBOARDS:

Manufactured specifically for the game of soccer. Indoor Model 4240 shown, 6' wide x 3' 6" high x 6" deep. Other models available. Call for more information.
