Rink 3 Outdoor: Signature Series 6.0 aluminum frame dasher boards with powder coated white frames, clear facing and seamless glass all around. Locker-room benching with coat hooks, 45,000 sf protective rubber flooring, Becker MSR skate racking system, Klingbeil rental skates, Triple-head skate sharpener, Goal frames, nets, pads, Ice edger and Lobby lockers.

Background: The new Twin Rinks Ice Center at Eisenhower Park on Long Island is a world-class facility with two indoor, professional-size rinks, and one outdoor rink that will host roller and deck hockey leagues throughout the summer.

Twin Rinks will host youth and adult hockey tournaments, figure skating competitions, curling events, speed skating competitions and non-skating entertainment events. It will offer weekly public skate sessions, a variety of clinics, programs and leagues for both male and female hockey players, and programs for figure skaters of all skill levels.

The Project: Becker Arena Products was chosen to provide equipment for all three rinks in this new facility.

“Our plan from the very beginning was to put together a premier facility in the United States. After the interview process with Robb Olexin, Becker was the clear choice to join our vendor team based on their reputation, higher quality of product and project development expertise. They did not disappoint and we couldn’t be happier.”

Deniz Yalvac: Project Ice Consultant
