

Becker Arena Product's Ultimate™ Vinyl Lines & Logos Basic Instructions

Installation

- 1 - Unpack and layout on the ice
- 2 - Position into place
- 3 - Lightly spray to seal

It is most common to put down approximately a 1/8" – 1/4" layer of ice, paint the ice white and then install the lines, face off dots, creases, circles and logos if applicable. Use the rink diagram provided as a measuring and reference tool during installation.

Removal

- 1 - Shave ice to 1/4"-3/8" above lines
 - 2 - Hammer out ice on one end
 - 3 - Pull to remove *Please wear your safety glasses*
- Rinse, dry and roll or lay flat before storing
