

MSR SKATE RACK SYSTEM

Organized for maximum service and return

MSR Skate Rack

MSR Skate Rack System

Whether you're building a new facility or working on a better way to manage your current skate rental program, be more organized, efficient and profitable with our unique Modular Skate Rack System (MSR). Becker Arena Products MSR is a customizable system that features your choice of wall, freestanding, under-the-counter or mobile components. All systems are adjustable to any size, brand or quantity of skates. You can even add and reconfigure as your inventory changes.

Key features:

- 1 Extends the life of the skate by suspending the boot and protecting the blade.
- 2 Shelves are adjustable vertically and skate holders are adjustable horizontally.
- 3 Extruded plastic skate holder to fit any size or brand of skate.
- 4 Labeling option.
- 5 Alternative mobile rolling system.

Under counter system

Mobile rolling system

Becker Arena Products MSR, Modular Skate Rack System, is customizable to any room and any quantity, size or brand of skates. If your inventory changes at any time you simply adjust your shelf or skate holders to accommodate the change or simply add on to the existing system.

Completely transform unused or inefficient spaces with Becker Arena Product's MSR Modular Skate Rack System. With a simple layout of your space and the number of skates you intend to inventory, we'll give you a complete rental skate storage solution. MSR Blade Saver design helps prevent blades from rusting. A total MSR Modular System grows with your business and easily allows for changes with your inventory needs.

MSR Skate Rack System is adjustable and customizable to fit your needs

Storage is easy to manage.

- Skate holders adjust horizontally.
- Shelves adjust vertically.
- Optional labelling system makes skates easy to find.

Adjustable to your needs and requirements

Shelving systems are designed to last longer.

- Sturdy powder coated uprights and shelves.
- Easy to configure shelving.

Custom configurations

Choose from 12 different configurations that can include any combination of the following:

- Wall or center room systems.
- Under-the-counter systems.
- Mobile unit systems.
- Single-sided or double-sided shelves.
- Single-deep shelves.

Unique "Blade Saver System" helps keep skates in optimal condition

Skates are easy to access and easy to store.

- Extruded plastic sleeve holds skate upright.
- Allows blade to air dry and minimizes rust.
- Protects blade and reduces resharpening
